

Oliwer Sowinski

IT TECHNICIAN

Profile

Enthusiastic and driven IT professional seeking a challenging role to apply my growing technical expertise. With a lifelong fascination for technology, I have developed a strong foundation in hardware developing, web design, programming, networking and cybersecurity. My keen interest in personal computing has led me to explore various projects, including building personal RaspberryPi, VPNs and NAS servers. I am a quick learner with a strong problem-solving ability, eager to contribute to innovative projects and expand my knowledge within a dynamic IT environment. I possess excellent communication skills and thrive in collaborative settings. I am confident in my ability to adapt to new technologies and challenges, and I am committed to pursuing a successful career in the IT industry.

Employment History

IT Technician, Broomhill Bank School

JULY 2023 – DECEMBER 2024

As an IT Technician, I was responsible for managing and maintaining the organisation's network infrastructure, ensuring seamless connectivity and optimal performance. My role involved providing comprehensive IT support to staff, troubleshooting hardware and software issues, and conducting regular maintenance and repairs of devices to prevent downtime. I also played a key role in implementing new technologies and systems, enhancing the overall efficiency and security of the IT environment.

- Successfully managed and maintained a secure and efficient network infrastructure.
- Provided prompt and effective IT support, resolving 95% of issues within the first call.
- Conducted regular maintenance and repairs, reducing device downtime by 80%.
- Implemented new technologies that improved system performance by 40%.
- Trained staff on best practices for IT security and device usage.
- Developed and maintained comprehensive documentation for IT processes and procedures.
